Dear CHA members

Welcome to Year 2020 and may all your positive thoughts come true!

The combination of focused intention, belief and detachment enables our clients to move through life calmly. As we know, the Universe always fulfills one's intentions, and does so in the most appropriate fashion using sequencing and quantum intelligence beyond our comprehension.

When we face a challenge or problem, simply relax - you know that it is all part of the intended outcome, and it will be solved as we listen and learn.

Challenges are only there to help us take the final step to closure, and from there to reach the desired and intended outcome.

Recognizing facts, listening to the cause, life starts to work out automatically, based on our desires and intentions, which are backed up by our beliefs.

Once this practice becomes a natural part of our habits we are more confident and relaxed through this new way of living. Old habits of fear, anxiety, frustration and anger will fade gradually and we will start succeeding faster and faster. And because we practice and improve our skills and are more aware and conscious of the whole Self, the time between thought and its physical manifestation becomes one.

There are many people that have reached this ultimate state of being - they are even part of the CHA board.

In love and light. Detlef Joe Friede

Past Founder and CHA

President Diane B. Cherrie

Live life to its fullest by Eike M. Jordan

Intentions coming from the heart and within the light are the mandatory platform to work from. Remaining neutral and open minded, forgetting about socially and environmentally implanted boundaries, avoiding limiting addictions and energy sources.

Choose future outcomes carefully with your intentions and desires, while accepting all present moments. Present moments are the perfect outcome of our past thoughts, states and actions. They are a gift to enable one to experience oneself, recognize and evolve further. Resisting, or even cursing the present result of the past only perpetuates its nature.

Your dreams, thoughts and visions create your world. You will rise up and you may fall as you are fully in charge to decide the outcome with your very own thoughts and feelings about the rising and falling of your self.

Suffering is the result of a tape loop within the thoughts. It is an indication of being in imbalance with the laws of the universe, which always seek harmony. The only purpose of suffering and stronger repeating signals is to teach us when a thought is in error, and alert us to move forward to the thought that will serve us better. Suffering stops as soon as the correct thought/way is recognized, and turned to the new reality. In the presence of suffering, simply don't dwell on resisting and complaining. Instead, examine with an open mind, and the answer will always show itself to you and you move into completion, e.g. pain stops, the physical, emotional and energetic balance gets reinstated.

Once you understand the universe's complex yet simple rules that are perfectly balanced, you cannot fail to succeed predictably. Quit living by accident, by default or by social engineering from third parties. Live by design - your very own design. Design your life using goals, visualization, imagination, and plan reality - all of this ² lived consistently, daily, clearly, accurately, and with love to the details.

CHA Board of Directors

Eike Michaela Jordan is co-author in the

#1 Amazon Bestseller

“Wake up the Happy Brain”

Essentially, this is a practical workbook displaying authors from around the world with their own unique ways, awakened to their calling and thoughts outside of the box to offer positive treatment modalities for a variety of conditions. We believe this book will provide a comprehensive insight into how these pioneers have transformed lives and benefited consumers in ways that go beyond the allopathic treatment model of Western medicine.

In fact, I guarantee that there is literally something for everyone, from stories that display details of personal recovery and new perspectives on getting back to the basic balance and to enable to thrive in an increasingly complex world.

Each author, at the end of his or her story, has a personal biography with contact information. We encourage you to take full advantage of this opportunity to reach out to any author of your choice for further information and personal coaching. I would also like to take this opportunity to thank my fellow authors for the excellent work they perform all around the world. It is genuinely awe-inspiring to see the writing of so many dynamic healers gathered in one place to share their unique messages, secrets, and stories. While you read this book, keep in mind that you also have the capacity within yourself to achieve a resilient, and happy brain!

Codes of Ethics

Introduction and Purpose:

The Canadian Hypnosis Association is dedicated to provide the highest standard of professional coaching, consulting, assessment and training services.

The Code of Ethics serves as a foundation for practitioners of the Art of Hypnosis in all business, moral and professional practice. It guides on how to interact with professional colleagues, and care for clients in a safe and healthy manner, and within legal and ethical boundaries in Canada. It ensures that both client and practitioner are protected and quality standards are understood.

The code of Ethics provides a moral framework within the Art of Hypnosis and Quantum Energy Work for recognizing information and making decisions to prevent from damage and protect any and all boundaries. In case of an extraordinary ethical conclusion that may not be anticipated or regulated, and more than one alternative decision may be considered ethical it is up to the board and legal advisory to add to the ethics CHA bylaw. Therefore, practitioners need to enhance their professional judgement through the following guidelines as well as consulting their supervisors / teachers in writing for implementing ethical decision making, and they may consult in writing a senior, trusted colleague or other reliable sources.

The defined Code of ethics provides a reference point to prevent and work through challenges that may arise with individuals, families or communities. Practitioners must enhance their professional judgment through the knowledge of these guidelines and the use of ethical decision making processes. The CoE prevents this organization and its individual elected Board of Directors from activities that may harm the interests of other organizations, individual societies, consumers, or the environment or the large community of medical-therapeutic practitioners and quantum energy professionals as a whole.

The Code of Ethics does not replace legal advice! Such guidelines are designed to support practitioners in providing professional, ethical and competent practical treatment, however, they are not binding beyond the law.

Ethical Endeavours

- CHA promotes the Art and Science of Hypnosis as a tool for bettering all areas of human lives.
- CHA supports, recognizes and addresses organizational, social and political factors that influence the Art and Science of Hypnosis and our society as a whole.
- CHA condemns the misuse of Trance work for monetary, political, personal and or corporate interests
- CHA advocates for change of unethical policies, legislation, or regulations that may affect Practitioners and/or Society as a whole.
- CHA's mandate is to be able to assess the individual practitioner's personal ethical issues, operating their practice on an ongoing basis.
- CHA stimulates membership discussions which bring consequently questions to the attention of The Canadian Hypnosis Association.
- CHA addresses perceived unethical behaviour of colleagues in an appropriate manner.
- Accept and consider feedback to one's own behaviour and actions.
- CHA cooperates with committees and Government agencies, who address and are concerned with ethics and / or ethical conduct.

Why is it so important to work with CHA accredited Hypnotherapists?

As in all professions in this world, there is the skilled and trained professional and there is the backyard pretender. With something so sensitive and essential as ones soul, brain and individual stored emotions, all clients deserve only the best with quality measurement and assurance.

It is way too easy to fall for someone pretending to practice hypnotherapy, but then that person studied only off a book and is simply good at reading of the phrases, not knowing what they are doing. Or to be at the mercy of a stage hypnotist, where perception and memory can be altered and there is no return to be your original self.

A competent and CHA certified Hypnotherapist learned all the ethics and legal aspects and is trained to respect all individual boundaries and free will. All the therapy is non-invasive and pain-free, uplifting and with utmost diligence performed. Records will be kept in professional manner. Teamwork capacity is part of the good ethics.

Within a member application process, the individual CHA membership applicant has to proof and provide information about accomplished skill sets

Contact

We want to hear from you

1. If you have some outstanding experiences within any Trance work, please send us a written statement
2. If you are interested to learn more about the Art of Hypnosis, please get in contact with us
3. if you want to report unethical behaviour , please get in contact with us
4. If you have any other question about membership, fee structure and such
